

CS410 Weekly Development Report # 4

Team Copper

Performance Period: Wednesday 2/5 - Tuesday 2/11

(Note: there should be one report **posted to the project website** at the end of each week...)

1. **Summary of Group Accomplishments:** <designated team member should summarize group accomplishments>
 - All team members successfully set up their development environments and frameworks
 - Installed OpenAI API into Laravel
 - Created a functioning Debt model and integrated it to the Finance Page
 - Brainstormed more user stories and linked them to a feature.
 - Brainstormed tasks to be done to implement a user story
2. **Individual Contributions/Accomplishments:** (to be filled out by each individual)
 - **Erika:**
 - i. Started looking at Filament and integrating it with Laravel
 - ii. Added new user story ideas to User stories brainstorm
 - **Brian:**
 - i. Watched a Docker intro video, OpenAI gpt-4o-mini video
 - ii. Learned how to set up a container in Docker
 - iii. Installed/Integrated the OpenAI API into the project
 - iv. Attended weekly team meeting/biweekly mentor meeting
 1. Learned how to break down stories into clear tasks using CRUD
 2. Learned horizontal vs. vertical prototyping
 - v. Created some user stories for the user, educator, and PFP
 1. Users: Debt tracking, budgeting, goal tracking, community/groups
 2. Educator:
 - vi. Broke down some user stories into tasks using CRUD
 - vii. Added basic milestones to the Trello board (Creation of UI for all main features)
 - viii. Created the user stories to features table
 - **Bryce:**
 - **Darrick:**
 - i. Created a Debt model for the prototype
 - ii. Linked the Debt model to the admin panel to allow CRUD operations
 - iii. Created a form on the /finance page so users can create their own debts.
 - iv. Added validated to the user Debt form to ensure reasonable input.
 - v. Added Filament notifications to the user Debt form so users are notified that a debt was created successfully.
 - **Smit:**
 - i. Added few user story to brainstorm docx
 - **Josh:**
 - **Indi:**
 - i. filament,finally finished the docker video, updated and downloaded new tools for the new direction

CS410 Weekly Development Report # 4

3. Key Objectives for Coming Week (top level prototype development objectives)

- Begin development of structure for Financial Dashboard
- Begin implementation of OpenAI gpt-4o-mini to what-if analysis and budgeting/Finance page
- Begin development of Community page
- Begin development of Achievements page
- Prepare Slides and Prototype for Prototype Demo 1 2/19

4. Issues/Concerns: Examples below...

- **Need more consistent contributions to the course from the team.**
- **Improve communications.**
- **Team lead needs to be more assertive.**
