

CS410 Weekly Development Report # 6

Team Copper

Performance Period: Wed Feb 19 - Tues Feb 25

*(Note: there should be one report **posted to the project website** at the end of each week...)*

1. **Summary of Group Accomplishments:** <designated team member should summarize group accomplishments>
 - Learned about our tools by developing the project and finding new packages to use.
 - Updated slides to reflect current progress
2. **Individual Contributions/Accomplishments:** (to be filled out by each individual)
 - **Erika:**
 - i. Updated my Next steps slide to remove the Goals section from the Rewards page
 - **Brian:**
 - i. Marked features that are done, WIP, and planned to work in the user stories to features table
 - ii. Added my next steps in the slides.
 - **Bryce:**
 - **Darrick:**
 - i. **Updated Filament table guides in the Drive**
 - ii. **Fixed a few bugs in the prototype**
 - iii. **Started to look into Filament Charts.**
 - iv. **Updated my next steps in the slides.**
 - **Smit:**
 - i. Added my next steps slide on what's the next step for budget UI
 - **Josh:**
 - **Indi:**
3. **Key Objectives for Coming Week** (top level prototype development objectives)
 - Experiment with OpenAI API's capabilities
 - Begin development of budget creation process (hard coded and with AI model, hopefully)
 - Begin development of hard-coded what-if analysis and graph creation using user data
 - Revise database schema based on current implementation and final prototype with Mermaid
 - Consider switching story management tool from Trello to Jira
 - Implement CI/CD.
 - Look into using VM to deploy Laravel sites to the web
 -
4. **Issues/Concerns:** Examples below...
 - **Big learning curve. All hands on deck!**
