

## CS410 Weekly Development Report # 7

### Team Copper

**Performance Period:** Wednesday 2/26 to Tuesday 3/4

(Note: there should be one report **posted to the project website** at the end of each week...)

1. **Summary of Group Accomplishments:** <designated team member should summarize group accomplishments>
  - Began development of the what-if analysis
    - i. Made algorithm for debt projection
  - Setup a new Jira project to organize user stories better.
  - Revised the dashboard UI
    - i. Goal slider bar now linked to goal table and can represent actual goal data.
2. **Individual Contributions/Accomplishments:** (to be filled out by each individual)
  - **Erika:**
    - i. Started working on modifying the Rewards page (link Add Goal to Finance page)
  - **Brian:**
    - i. Created a site in Jacob's cloud VM to deploy CreditTrax on the Internet.
    - ii. Setup a Jira project to utilize better organizational tools
    - iii. Started creating a database schema in Mermaid based on current implementation and the plan.
    - iv. Created a template for Lab 2 section 1 and 2
    - v. Skimmed the OpenAI API documentation
    - vi. Created an account for GameLayer API and read the documentation
  - **Bryce:**
    - i. Added a debt breakdown donut chart, showing distribution of debt payments by categories
    - ii. Link goal slider to goals table to represent actual goal data in the dashboard
  - **Darrick:**
    - i. **Removed AI toggle from the what-if form**
    - ii. **Started work on creating what-if algorithms utilizing debt data.**
    - iii. **Connected an algorithm to the what-if form for testing**
  - **Smit:**
    - i. Started working more on Budget UI,
  - **Josh:**
    - i. Created an app logo for draft poster.
  - **Indi:**
    - i. Improved community UI page
    - ii. Improved Friends request feature and group creation
3. **Key Objectives for Coming Week** (top level prototype development objectives)
  - Develop the algorithm for saving money in the what-if analysis
4. **Issues/Concerns:** Examples below...
  - **Figure out how to use JS files in a PHP file for OpenAI and GameLayer**

## CS410 Weekly Development Report # 7

- Need more consistent communication for development
- Need to be in sync, starting with the Jira and the database.
- Still haven't gotten the CI/CD developed. Big problem.
